Adel Al-Hashimi
President, IIA Qatar

Mr. Adel Al-Hashimi has over 20 years of experience in internal auditing, finance & procurement. He is the President of the IIA Qatar since 2020. He has also held various leadership positions, including establishing and leading the Internal Audit Office at Qatar Olympic Committee for over ten years. He also contributed to the establishment of several Internal Audit Offices in different entities.

Mr. Adel Al-Hashimi holds a Bachelor of Commerce from Qatar University 2003. He participated in many training courses in internal auditing, finance & procurement at distinguished institutions. Also, he graduated from Qatar Leadership Center. Mr. Adel is one of the keynote speakers in conferences and seminars.

Issa Habash
Head of Risk - PwC Qatar

Issa is a Partner with PwC in the Middle East with over 25 years of Risk consulting experience. Issa is currently the Head of the Risk practice at PwC Qatar. He leads a team of over 50 professionals who deliver various services (e.g. Internal Audit, Risk Management, Governance and Compliance) to clients in several industries. Issa is a frequent presenter to Executive Management, Boards and Audit Committees of his clients. Issa has been working in the Qatar market for about 10 years and prior to that, he worked in the US and Canada.

Issa holds a Masters of Accountancy from Southern Illinois University at Carbondale. Issa is also a U.S Certified Public Accountant (CPA) and Certified Internal Auditor (CIA).

Rashid Bin Ali Al Mansoori
Chief Executive Officer, Aamal

A dynamic leader, Mr. Al Mansoori has a track record of successfully growing businesses. He is known for his thought leadership and recognised internationally for his role in helping to make Qatar a major business hub. He was the CEO of Qatar Stock Exchange (QSE) from 2011 to 2021. Mr. Al Mansoori currently holds the position of CEO at Aamal Company, a role that he stepped into in June 2022.

Mr. Al Mansoori holds a BSc degree in Computer and Management Sciences and an Honorary degree of Master of Professional Accountancy from the Metropolitan State University of Denver.

Azzah Fawzi

Risk Partner and Middle East ESG Reporting Leader, PwC Middle East

Azzah Fawzi is a Partner with PwC, leading the firm's Risk Services for the Energy, Utilities and Resources sector across the Middle East region. She has over 25 years experience in delivering advisory and risk assurance to Energy, Oil & Gas, and Government clients around the world, including the US and GCC, where she has been stationed for the last 12 years. Azzah has worked across the entire energy supply value chain, including marketing and shipping, venture projects, operations, subsurface and reservoir engineering directly within organisations such as Chevron, ExxonMobil, and Qatargas. Azzah is also the Middle East ESG Reporting Strategy and Embedment leader. She advises clients in areas such as climate change, sustainability, and assurance against ESG standards and reporting - this includes conducting materiality assessments, benchmarking, reporting, risk and controls and assurance.

Dabeer Rasul

Risk Partner, PwC Middle East

Dabeer is partner with PwC with more than twenty years of experience in internal audit, risk management, compliance, corporate governance and technology risk advisory. He trained and worked with another Big 4 Firm for eighteen years moving up to Partner in Risk Advisory practice where he contributed significantly in establishing the practice in Abu Dhabi and growing it to one of the largest practices in the Middle East region. Dabeer worked with both public and private sectors ranging from local to international and listed companies. Dabeer has also contributed significantly in driving technology assurance and data analytics services to clients.

Ziad Zogheib

Risk Partner, PwC Middle East

Ziad is a Partner with the Risk Practice, at PwC Middle East. Ziad has been with the firm for more than 19 years, leading Risk Management, Internal Audit, Corporate Governance and Compliance projects. Ziad started his career in external audit and led the audit of major institutions in Lebanon and the UAE, operating in a number of industries of which banking, Insurance, Manufacturing and Retail. Ziad specialized in internal controls around financial reporting and assisted clients in addressing identified issues.
