GO BEYOND SKILLS

DEVELOP YOUR PROFESSIONAL COMPETENCIES

While skills can be relevant to a specific job, competencies extend beyond that to knowledge and abilities, allowing you and your team to perform at a higher level. Competencies are formed over longer periods of time, and are transferable between positions and employers, helping to drive your career development. A competency model collects the behavioral and technical components that an individual performing a job function must have to demonstrate mastery.

With that in mind, The IIA has developed the Internal Audit Competency Framework® to help you focus on the capabilities that are relevant to your success. Our Framework will help you:

- Add value to your organization and drive superior performance.
- Advance your career and demonstrate your value to your organization.
- Select and develop employees.

By focusing on competencies, you'll develop the qualities that matter most in your current position, as well as the expertise that will propel your career growth and help you achieve your goals as an internal auditor.

For complete details on the Internal Audit Competency Framework® that can be accessed at any time, please visit theiia.org/CompetencyFramework.

MAKE THE MOST OF YOUR LEARNING

Organizing your learning program by broader competencies helps you demonstrate the values that are important to your organization and focus on capabilities that match your company's strategic priorities.

The Internal Audit Competency Framework® provides four distinct knowledge areas, each featuring three competency levels. Our learning is grouped into these categories, allowing you to choose the courses that fit your particular stage in your career.

The four areas of the Internal Audit Competency Framework® are Professionalism, Performance, Environment, and Leadership & Communication. The IIA provides training courses that support each of these competencies, helping you develop your skills and knowledge and encouraging your growth within the internal audit profession.

LEARNING DELIVERY OPTIONS

The IIA offers learning through a variety of delivery options to meet your needs effectively and efficiently.

INSTRUCTOR-LED IN-PERSON LEARNING

In-person learning is held at various locations throughout the US and Canada each year. This hands-on, interactive, and in-depth learning is conducted by internal audit practitioners who share real-world experience, leading practices, and knowledge. You will gain a better understanding of the latest audit industry best practices, proven techniques, and trending issues through exercises and group discussions.

INSTRUCTOR-LED ONLINE LEARNING

Learn from your office or preferred location with these hands on, interactive, and in-depth learning sessions that are conducted by internal audit practitioners who share real-world experience, leading practices, and knowledge. This delivery option gives you the flexibility to fit training into your busy schedule.

ONDEMAND LEARNING

Learn at your own pace at any time or location through online self-study. Courses are available on a wide variety of topics, from onboarding new staff to audit management practices for senior leaders. For a complete list of OnDemand options, please visit theiia.org/OnDemand.

ENTERPRISE LEARNING SOLUTIONS

The IIA is the trusted, global leader in foundational, advanced, and executive audit training. Our partners benefit from:

- The Most Current & Accurate Content
- Cost-Effective & Scalable Learning Options
- Single Source Solution with Flexible Formats
- Tailored Upskilling & Succession Planning Curricula

IMPORTANT NOTICE:

All 2024 IIA Courses Have Been Aligned with the NEW Global Internal Audit Standards

The IIA's 2024 courses and training materials have been updated to reflect the changes being implemented by the International Internal Audit Standards Board as part of their comprehensive review and enhancement of The IIA's International Professional Practices Framework (IPPF), including the Global Internal Audit Standards™ and the International Standards for the Professional Practice of Internal Auditing.

The IIA is committed to providing the latest industry standards and practices to equip professionals with the knowledge and skills needed for success in the dynamic world of internal auditing.

Explore the catalog and discover the wealth of knowledge and expertise our courses offer, now fully aligned with the new Global Internal Audit Standards.

The IIA provides assessment-based certificate programs. Upon program completion and successful certificate exam fulfillment, participants receive a digital badge, a credible and resume-worthy representation of their newly mastered competencies. All courses are only offered in English.

AUDITING THE CYBERSECURITY PROGRAM CERTIFICATE

KNOWLEDGE LEVEL: INTERMEDIATE

DESCRIPTION:

This certificate program emphasizes why internal audit should play a key role in supporting the organization in reducing cyber risk. Cybersecurity program auditing can serve as the critical barrier between a potential cyber-attack and the organization. Due to the cost, risk, and reputational damage that can result from a cyber incident or data breach, every organization needs a cyber strategy and response plan.

CPES 20

IN-PERSON ONLINE

COSO INTERNAL CONTROL CERTIFICATE

KNOWLEDGE LEVEL: INTERMEDIATE

DESCRIPTION:

This certificate program, through a blend of self-paced learning and instructor-led classroom instruction, offers you a unique opportunity to develop expertise in designing, implementing, and conducting an internal control system. Upon completion of the self-study course and the in-person training, you'll be eligible to sit for the exam and earn your certificate.

CPES 25.5

IN-PERSON ONLINE ONDEMAND

COSO ENTERPRISE RISK MANAGEMENT CERTIFICATE

KNOWLEDGE LEVEL: INTERMEDIATE

DESCRIPTION:

This certificate program allows you to take control of your risk management strategy. Enterprise risk has changed, new risks have emerged, and managing risks has become everybody's responsibility. With the COSO ERM Certificate program, you will learn the concepts and principles of the newly updated ERM framework, and you will be prepared to integrate the framework into your organization's strategy-setting process to drive business performance.

ESG CERTIFICATE: INTERNAL AUDITING FOR SUSTAINABLE ORGANIZATIONS

KNOWLEDGE LEVEL: INTERMEDIATE

DESCRIPTION:

This certificate program is designed to enhance participants' current understanding of ESG concepts, including ESG reporting. This program is ideal for internal audit, risk management, and compliance leaders who currently possess a basic understanding of ESG topics and wish to enhance their knowledge and practical application of leading practices on how to assess their organization's existing ESG governance and compliance program.

A summary card for the ESG Certificate program. On the left, a dark teal box contains the text 'CPES' and a large white number '16'. To the right of this box is a vertical dashed line. Further right are two icons: an orange icon with three stylized figures representing 'IN-PERSON' and a green icon with a computer monitor and three stylized figures representing 'ONLINE'.

FINANCIAL SERVICES FOR INTERNAL AUDITORS CERTIFICATE

KNOWLEDGE LEVEL: INTERMEDIATE

DESCRIPTION:

This certificate program will provide you with critical intelligence, guidance, and practical applications to advance a career in financial services internal auditing. The program includes a general financial services foundations unit followed by more in-depth training on liquidity, model risk management, fraud, culture and conduct, and other mission-critical topics.

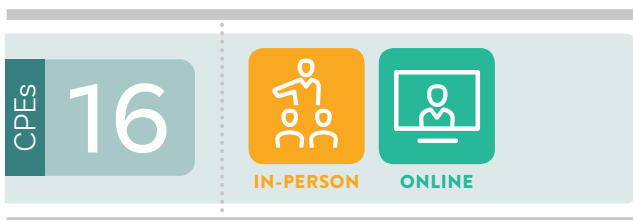

A summary card for the Financial Services Certificate program. On the left, a dark teal box contains the text 'CPES' and a large white number '25.5'. To the right of this box is a vertical dashed line. Further right are three icons: an orange icon with three stylized figures representing 'IN-PERSON', a green icon with a computer monitor and three stylized figures representing 'ONLINE', and a red icon with a play button symbol representing 'ONDEMAND'.

FRAUD ANALYTICS FOR INTERNAL AUDITORS CERTIFICATE

KNOWLEDGE LEVEL: INTERMEDIATE

DESCRIPTION:

This certificate program is designed to ensure internal auditors have technical expertise to perform their role in fraud identification, detection, deterrence, and investigation via data analytics. The program provides the internal auditor a fundamental understanding of fraud and fraud analytics.

A summary card for the Fraud Analytics Certificate program. On the left, a dark teal box contains the text 'CPES' and a large white number '16'. To the right of this box is a vertical dashed line. Further right are two icons: an orange icon with three stylized figures representing 'IN-PERSON' and a green icon with a computer monitor and three stylized figures representing 'ONLINE'.

IT GENERAL CONTROLS CERTIFICATE

KNOWLEDGE LEVEL: INTERMEDIATE

DESCRIPTION:

This certificate program will assist the internal auditor in gaining a fundamental understanding of technology-related risks and controls, including describing the fundamental concepts of IT audit, exploring common risks and controls related to information technology and recognizing methodologies for assessing the effectiveness of information technology. This certificate program is designed for internal auditors and consulting associates who wish to increase their knowledge of information technology auditing.

A summary card for the IT General Controls Certificate program. On the left, a dark teal box contains the text 'CPES' and a large white number '20'. To the right of this box is a vertical dashed line. Further right are three icons: an orange icon with three stylized figures representing 'IN-PERSON', a green icon with a computer monitor and three stylized figures representing 'ONLINE', and a red icon with a play button symbol representing 'ONDEMAND'.

NEW! QUALITY ASSESSOR CERTIFICATE

KNOWLEDGE LEVEL: INTERMEDIATE

DESCRIPTION:

This certificate program, based on the curriculum in the instructor-led course, Performing an Effective Quality Assessment, prepares quality assessor candidates for the certificate exam. A passing score on the exam rewards candidates with a two-year certificate stating the candidate has successfully completed IIA recognized external quality assessment training and is a recognized authority on conducting quality assessments in accordance with the Standards. Those earning the Quality Assessor Certificate will be added to a database on the IIA website - which will increase their visibility as an available, highly qualified QA assessor - and will receive a digital badge to add to their LinkedIn profile and resume.

Certify Your Team

Success Is Measured by
the Impact They Make.

Having a team with **Certified Internal Auditor® (CIA®)** after their names demonstrates to stakeholders that your internal audit department is aligned and possesses the latest knowledge, skills, and competencies to effectively carry out the professional responsibilities to conduct any internal audit, anywhere.

With CIA in their titles, your team members prove they are credible, competent, and committed to helping your organization improve its culture and enhance critical processes.

A CIA certified team is...

- Made up of stronger, more competent professionals.
- Comprised of credible and trusted internal auditors.
- Equipped to evolve with unexpected challenges.
- Essential to the organization's success.
- A valuable source of sound candidates for succession planning.

Prove their credibility and proficiency.

AGILE AUDITING

KNOWLEDGE LEVEL: **INTERMEDIATE**

DESCRIPTION:

This course takes the mystery out of agility. It starts with an overview of the values and principles of Agile software development and introduces scrum – a framework which can be used to manage complexity in the internal audit engagement process. Compatibility with the International Standards for the Professional Practice of Internal Auditing is covered to dispel common misperceptions about whether Agile auditing aligns with professional standards.

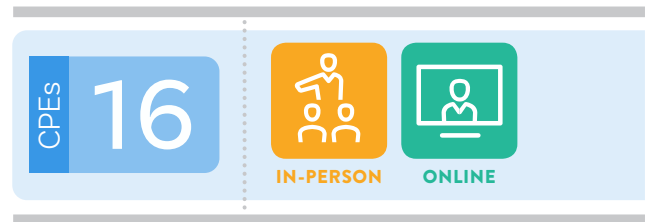

Course information bar for Agile Auditing. It features a blue box with 'CPEs 16', an orange icon for 'IN-PERSON' (three people), and a green icon for 'ONLINE' (a computer screen).

BUILDING A SUSTAINABLE QUALITY PROGRAM

KNOWLEDGE LEVEL: **INTERMEDIATE**

DESCRIPTION:

This course will help participants learn how to build and maintain an effective Quality Assurance and Improvement Program (QAIP), leading to a successful external quality assessment.

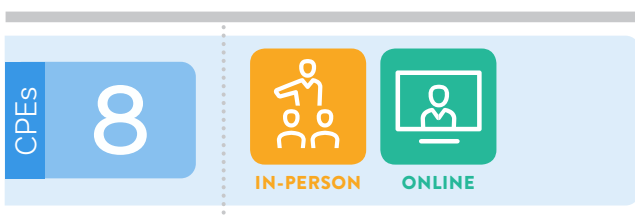

Course information bar for Building a Sustainable Quality Program. It features a blue box with 'CPEs 16', an orange icon for 'IN-PERSON' (three people), and a green icon for 'ONLINE' (a computer screen).

DEVELOPING AUDIT OBSERVATIONS

KNOWLEDGE LEVEL: **BASIC**

DESCRIPTION:

This highly interactive course provides internal auditors with timely insights into how to utilize critical-thinking techniques to translate audit findings into actionable audit observations. This course is not focused on the act of audit report writing, but rather on the foundational component of audit reporting – an effective audit observation. This course reviews the common writing mistakes that impact an internal auditor's ability to effectively communicate audit observations.

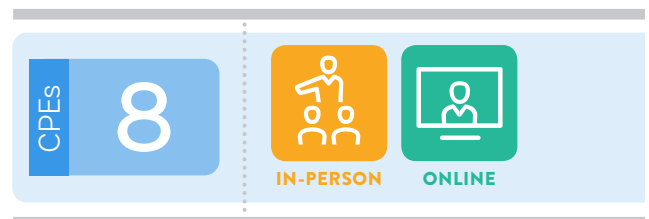

Course information bar for Developing Audit Observations. It features a blue box with 'CPEs 8', an orange icon for 'IN-PERSON' (three people), and a green icon for 'ONLINE' (a computer screen).

NEW! ETHICALLY MASTERING THE GLOBAL INTERNAL AUDIT STANDARDS

KNOWLEDGE LEVEL: **INTERMEDIATE**

DESCRIPTION:

This course is for internal auditors seeking to enhance their knowledge and skills in alignment with the revised Standards set forth by The IIA. This course delves into the changes introduced to the IPPF and Standards, with a particular emphasis on the five domains that govern the internal audit profession. This unique two-part course is comprised of a 6-CPE instructor-led training session exploring the structure, changes in language, and new requirements. The remaining 2 CPEs are completed as self-study as participants apply their enhanced understanding of the Global Internal Audit Standards in ethical scenarios.

Course information bar for Ethically Mastering the Global Internal Audit Standards. It features a blue box with 'CPEs 8', an orange icon for 'IN-PERSON' (three people), and a green icon for 'ONLINE' (a computer screen).

FINANCIAL AUDITING FOR INTERNAL AUDITORS

KNOWLEDGE LEVEL: **BASIC**

DESCRIPTION:

This course provides an overview of how key business processes relate to financial statements and the impact of technology on financial auditing. The course will explore the analysis of an organization's financial statements using application exercises, where participants will calculate key ratios and analyze trends over time. This course will also enable participants to learn how to recognize "red flags" in financial statement reporting.

**Updated in 2022 with modern applications and robust activities!*

FUNDAMENTALS OF COMPLIANCE AUDITING

KNOWLEDGE LEVEL: **BASIC**

DESCRIPTION:

This course provides a comprehensive overview of key compliance auditing concepts that are fundamental for all internal auditors. This course will introduce participants to a host of common regulations - both domestic to the United States, and globally - in addition to the controls needed to maintain compliance, and how to apply each regulation within the internal audit process.

A horizontal bar with a light blue background. On the left, a dark blue square contains the text 'CPES' in white. To its right, a larger light blue square contains the number '16' in white. KNOWLEDGE LEVEL: **INTERMEDIATE**

DESCRIPTION:

This course explores key root cause analysis tools and techniques that can be utilized in the planning, fieldwork, and reporting phases of an internal audit engagement; to enhance audit effectiveness, strengthen audit observations, and facilitate deeper discussions with management on issues identified. These tools can be used apart from or in conjunction with existing audit methodologies, tools, and techniques.

The IIA offers a wide variety of dynamic events focused on emerging issues in internal auditing. IIA conferences are designed to allow for networking with peers, gaining a greater understanding of leading practices, and taking your career to the next level, whether you choose to attend in person or virtually through livestream opportunities. The choice remains yours!

IIA HYBRID CONFERENCES

GAM Conference

March 11-13, 2024, ARIA in Las Vegas, NV

Great Audit Minds Conference (GAM) is the essential experience for audit executives seeking to be influential, indispensable, and informed.

International Conference

July 15-17, 2024, Marriott Marquis in Washington, DC

International Conference brings together experts from across the globe to address issues impacting the audit profession while providing the opportunity to share ideas with fellow internal auditors from 100+ countries.

GRC Conference

August 12-14, 2024, JW Marriott in Austin, TX

The IIA and ISACA partner to present GRC Conference annually to provide opportunities for IS/IT thought leaders to grow their network, expand their skillset, navigate challenges, and explore tech solutions.

Canada National Conference

September 15-18, 2024, Hilton in Quebec City

The IIA Canada's National Conference is a premier experience, bringing the internal audit community together and showcasing the profession's latest trends.

Financial Services Exchange

September 23-24, 2024, Omni Shoreham in Washington, DC

Participation in the Exchange affords auditors in banking, credit unions, insurance, asset management, and more, the opportunity to discuss key issues with policymakers and gain unprecedented access to industry insights.

IGNITE Conference

October 21-23, 2024, Caesars Palace in Las Vegas, NV

IGNITE Conference, The IIA's newest offering, is an interactive experience for emerging leaders and auditors interested in gaining hands-on tools necessary for the future of internal audit.

Our one-day virtual conferences have been established to educate internal auditors in all industry sectors on relevant hot topics impacting their organizations. Attendees will exchange ideas, network with their peers, and share best practices.

IIA VIRTUAL CONFERENCES

Fraud Virtual Conference

February 29

Explore two specialized streams, one for auditors detecting fraud and another for those conducting investigations. Gain valuable insights and innovative ideas to become informed and indispensable.

Data Analytics, Automation, & AI Virtual Conference

April 18

Discover how data, analytics, and AI empower auditors to focus on high-risk areas, ensuring accuracy, reliability, and completeness of data for more effective audits.

ESG Virtual Conference

June 20

Connect with ESG experts and internal auditors immersed in ESG reporting compliance and gain insights on adapting audit programs to evolving ESG regulations.

ERM/TPRM Virtual Conference

September 12

Delve into the latest strategies and best practices in Enterprise Risk Management (ERM) and Third-Party Risk Management (TPRM) to enhance audit effectiveness and mitigate risks.

Cybersecurity Virtual Conference

October 30

Gain insights on internal audit's role in addressing cybersecurity issues, including ransomware, data protection, and privacy, and learn ethical strategies to enhance your audit engagements.

Auditsphere Virtual Conference

December 5

Designed especially for small audit teams, engage with experts on managing unique challenges, nurturing key relationships, and meeting rising board expectations with limited staff.

Great Audit Minds Keep Evolving

GAM is the premier event for internal audit innovators, leaders, and trailblazers to engage with each other on solving today's business and audit challenges and exploring tomorrow's new frontiers.

March 11-13 | ARIA Resort & Casino | Las Vegas, NV & Virtually

Register today at theiia.org/GAM

GAM
WHERE LEADERS EVOLVE.

Great Audit
Minds

new horizons. **NEW OPPORTUNITIES.**

Join us in Washington, DC as internal audit experts, thought leaders, and practitioners from around the world provide cutting-edge insights and practices. It is an empowering experience to enhance skills, explore tech trends, and navigate evolving business risk landscapes globally.
