Topic: Ms. Korris presents an overview of how linguistic lie detection is used in business and investigative areas. Learn the basics of information gathering and how to interpret the information you receive. In an interactive setting, you will also be able to apply Linguistic Lie Detection basics to a variety of high profile media cases and see what the subject really meant.

About the Speaker—Nejolla Korris

Nejolla Korris is CEO of InterVeritas Intl. and an international expert in the field of Linguistic Lie Detection. She is skilled in Scientific Content Analysis (SCAN), a technique that can determine whether a subject is truthful or deceptive. Korris has analyzed documents for fraud, international security, arson, sexual assault, homicide and missing persons' cases, causing some of her clients to dub her the "Human Lie Detector."

Korris has taught this methodology throughout North America, Europe, the Middle East, Brazil and South Africa. Her clients include corporations, government agencies, law enforcement and the military.

Ms. Korris is a popular speaker on Lie Detection, Fraud Prevention & Investigation, Workplace Fraud and Organizational Justice. Ms. Korris recently launched a new speaker's series on the differing communication styles between men and women. She is a frequent presenter for The Institute of Internal Auditors, ISACA, the American Society for Industrial Security, the American National Safety Council, the American Institute of Certified Public Accountants, the Association of Certified Fraud Examiners and for ASIS Middle East in Bahrain. Nejolla's sessions on lie detection have ranked either #1 or #2 at the Institute of Internal Auditors International conferences consecutively since 2007.

Nejolla has a BA in Law from Carleton University and also serves as the Honorary Consul of Lithuania to Alberta.

InterVeritas International provides anti-corruption consulting, interviewing and interrogation training, investigative services, intelligence gathering, litigation support, linguistic statement analysis, employee audits and reference checks to corporations.

Organizing Tips for November

Dr. Melissa Gratias, MBG Organizing Solutions

Stop and Say Thanks

As we approach a new year, it can be tempting to focus exclusively on what needs to be changed or improved for the future – in short, what went *wrong* that needs to be fixed. Maybe Thanksgiving is the time to be grateful for how far we’ve come this year and for what went *right* in our work and lives.

Be Thankful

Ask yourself these questions:

- What went well this year?
- What was my greatest success or achievement?

What were the results/impacts of these achievements?

Show Thankfulness

Make a list of people who helped you accomplish your goals this year. Tell and show these people how much you appreciate their contributions, ideas, and support.

Accept Thanks

Others may be thankful because *you* went the extra mile. When someone tells you thanks, take a moment and absorb the positive energy. Be a gracious recipient of others’ appreciation.

Transition Plan for 2013 CIA Exam Released

In 2013, The IIA is revising the examination required to earn the Certified Internal Auditor (CIA) designation from four parts to three parts.

Program enrollees in the process of earning the designation but who have not yet completed the exam should use The [CIA Transition Planning Tool](#) to identify their available options and design a plan of action toward obtaining their certification.

Plan to attend the 2013 International Conference in Orlando, Florida this year!

Additional information and details can be found [here](#).

Certification in Risk Management Assurance™ (CRMA®)

The Institute of Internal Auditors is pleased to announce the development of the Certification in Risk Management Assurance (CRMA).

The CRMA is one more mark of professional distinction for internal audit practitioners. Earning the CRMA will assist you in demonstrating your ability to:

- Provide assurance on core business processes in risk management and governance.
- Educate management and the audit committee on risk and risk management concepts.
- Focus on strategic organizational risks.
- Add value for your organization
