## **Speaker Bios**

**Tom Wojcinski** is a Director with the Consulting Practice of Baker Tilly, a national accounting and advisory firm. Tom has 10+ years of technology consulting experience. Tom specializes in technology risk, transformation, and information technology governance. Tom has extensive project experience managing various IT projects including: IT audits and governance implementations, segregation of duties assessment/remediation, and various system implementation projects in manufacturing and distribution industries. Additionally, Tom contributes to the leadership of Baker Tilly's SSAE 16/SOC reporting practice, responsible for audit methodology development, and firm-wide delivery coordination.

**Mike Cullen** is a Senior Manager with Baker Tilly, a national accounting and advisory firm. Mike leads the firm's Technology Risk Services team in Washington, DC, focused on IT risk consulting and internal auditing. Over the past 11 years, he has worked with clients in many industries. He has led IT risk assessments and audits, developed information privacy and security programs, performed ethical hacking of IT systems, and conducted digital forensic investigations. Mike has presented to a variety of audiences, including various audit organizations, IIA chapters and regional conferences, and at multiple universities. He is also a Certified Information Systems Auditor (CISA), Certified Information Systems Security Professional (CISSP), and Certified Information Privacy Professional (CIPP). Before starting his career as an auditor he dreamed of being an astronaut or an ad man (before Don Draper made it cool).
