ISACA Winnipeg along with IIA Winnipeg are proud to bring you the following seminar.

### Auditing and Securing Cloud-Based Services

2 Days - March 20 and 21, 2012

*Space is Limited, so register early.*

**Registration Deadline is February 24th, 2012**

**Description:** In this two-day seminar you will explore the current state of cloud computing and its common architecture, and examine the major Software as a Service (SaaS), Platform as a Service (PaaS), and Infrastructure as a Service (IaaS) providers in the market today. You will cover the security and control deficiencies that exist in cloud-based services and look at Security as a Service as a way to protect against them. You will review a risk-based approach to audit and controls for cloud based-services and investigate such areas as cloud-based network models, cloud brokers, and disaster recovery and governance in a cloud-services environment. Throughout the seminar, class exercises will reinforce what you learn and help you identify the risks, controls, and gaps in cloud services.
