Focus and Features

In this three-day course, you will learn how to use ACL™ functions and scripts to gain new insight into your data and do more in less time. Functions let you investigate your data in ways you haven't thought of before, adding power and detail to your analysis. Scripts let you automate routine ACL tasks, freeing up time to concentrate on activities that require critical thinking and judgement. Scripts also help preserve best practices, which prevents errors, and results in better controls in your organization. ACL Certified trainers will show you how to implement scripts into your daily routine, and they will guide you through activities that illustrate how to work with scripts and functions efficiently and easily.

Course Objectives

By the end of this course, you will be able to:

- Create simple and interactive scripts to implement automated routines, continuous monitoring and gain further insight into your data.
- Apply ACL functions to perform parsing and harmonization of complex fields
- Apply ACL functions to search for matching data

Who Should Attend

Financial, Operational, and External Auditors;
Information Systems Auditors and Audit
Management.

Program Level

This is an advanced-level course.

Prerequisites

Completion of an ACL 200-level course is strongly recommended or at least six months previous experience using ACL for data analysis.

Course Method

This is a group-live, instructor-led course in a classroom setting. For in-class activities, participants use the latest version of ACL. The class size supports individual attention and development. For in-class activities, participants use the latest version of ACL. The class size supports individual attention and development.

To Take this Course

There are two ways to take this course.

Open Enrollment

Open enrollment classes are held at business centers around the world. To register or to view scheduled dates and locations, visit www.acl.com/training.

On-site

Bring the course to your organization. This option works best when there are five or more people who require training. For more information, please contact us.
