

## Risk Manager

**Husky Injection Molding Systems Ltd., Bolton, Ontario**

Reporting to the Director Risk Management and working with our global teams, the successful candidate will be responsible for managing audits and consulting engagements to drive efficiency and effectiveness in financial processes, business operations and major initiatives. The successful candidate will play a key role within the audit team in the successful development and implementation of an internal audit framework built on an enterprise risk management governance model.

### **Highlights of the role:**

- Developing trust, respect and credibility with members of the business management teams and executive management
- Partnering with management to enhance their knowledge and accountability to better manage risks and remedy control gaps and improve operating processes
- Identifying the relatively higher risk areas and planning audit engagements in order to drive efficiency and effectiveness
- Performing internal audit fieldwork and testing for complex situations such as tax, transfer pricing, purchase price accounting, financial derivatives, foreign exchange and reviewing operational processes and providing recommendations and findings to management and executives
- Participating in a multiyear global financial transformation initiative with a focus on identifying where best processes can be standardized and where best to recognize regional differences
- Supporting other auditors in the development and execution of audit plans, operational reviews and project engagements
- Monitoring and reporting on identified control gaps and risks and provide analysis and status remediation plans

### **Qualifications:**

- Bachelor's Degree and an Accounting Designation
- Auditing designation preferred

**Experience:**

- Minimum 5 years of demonstrated proficiency in performing financial audits using a structured approach to planning and executing with some exposure to process engineering
- Prior financial leadership roles (i.e. Finance Manager, Assistant Controller, Controller)
- Experience in a combined risk/audit management role

**Skills and Attributes:**

- Outstanding analytical skills
- Strong financial accounting expertise with excellent working knowledge of financial, manufacturing and information technology operational processes
- Strong project management skills
- Proactive individual who is highly motivated, energetic and driven by continuous improvement
- Successfully able to meet deadlines and objectives in a fast-paced environment
- Out of the box thinker/creative
- Strong communication and interpersonal skills
- Ability to work independently on assignments with minimal supervision

**Other:**

- Willing and ability to travel internationally (<15%)
