

## ***Call for Speakers for IIA Canada 2022 National Conference***

The Institute of Internal Auditors Canada National Conference is calling for speakers for the 2022 National Conference. The theme this year is ***The Power of Internal Audit – Be the Energy***. The Conference takes place in Calgary, Alberta, October 16 to 19. This is intended to be a hybrid event, which means you will have the chance to present in person as well as pre-record your session for those attending virtually.

The tracks in this conference include:

### **IT Audit, Cyber Security and Data Analytics**

Post-pandemic is seeing a greater reliance on technology. Will this increase risk? If so, by how much? These sessions will examine the new world including remote audits, remote working, a merging of skillsets between data analysts and internal audits just to mention a few.

### **Public Sector/MUSH**

The pandemic saw rapid change from a public sector perspective. How will this look post-pandemic? What will internal audit's role be in evolving the many programs rolled out by governments and public institutions to manage the limitations and challenges brought on by the pandemic? These sessions will cover these questions and more.

### **Leadership & Innovation**

Agility, merging of skillsets, vision, communicating and guiding the Board and C-suite - these are just a handful of the topics on the minds of our leaders. These sessions will address how and what our leaders in internal audit and risk are doing to meet the demands/needs of their clients, stakeholders and team members.

### **Fraud and Ethics**

Post-COVID is presenting organizations with an opportunity to assess, and even reset, their approach to ethics. Ethics touches so much of our decision making post pandemic; for example the decision to require all employees be vaccinated in many workplaces. Meanwhile, the potential for fraud has increased as new legislation and organization mandates come into effect which are viewed as a requirement to do business in this changed world. These sessions will examine how we go forward as internal auditors, as advisors and assurers in the areas of ethics and fraud.

### **Soundbite Sessions (hot topics)**

What is new, what is hot, what is trending? These sessions will speak to concepts and ideas outside the box.

Presenters will earn CPE Credits and receive a complimentary conference registration. Travel costs are supplemented up to \$750 if travelling from outside of Calgary.

## ***Publications***

For publications related to the Internal Audit profession, check out the [IIA Bookstore!](#)

## ***IIA Quality Assessments***

The [Quality Assessment Manual](#) for the Internal Audit Activity published by the Internal Audit Foundation in 2017, responds to issuance of The IIA's International Standards for the Professional Practice of Internal Auditing (Standards), the related changes in the internal audit profession, and the increasingly demanding business environments in which the profession operates.

In accordance with The IIA's Standards, "The chief audit executive must develop and maintain a quality assurance and improvement program that covers all aspects of the internal audit activity" (Standard 1300). The Manual was designed to provide guidance and step by step modules for the chief audit executive (CAE) in establishing and maintaining a quality assurance and improvement program, as well as for assessors, internal and external, in testing and assessing that program. The current edition updates and expands that guidance and enhances the models and assessment tools.

The latest edition has five chapters based on the principal elements of the quality program required by the Standards, with a continued strong emphasis on external assessments.

## ***Audit Executive Centre***

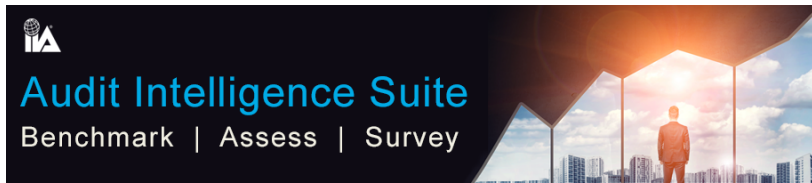

AUDIT EXECUTIVE  
— CENTER® —

The IIA's Audit Executive Center (AEC) is an exclusive member-based resource for chief audit executives (CAEs), enabling them to be more successful and relevant in all that they do. For over seven years, the AEC has assisted CAEs in responding to the unique challenges, emerging risks, and increasing demands of the internal audit profession. Learn more at the [Audit Executive Centre](#).
