GO BEYOND SKILLS

DEVELOP YOUR PROFESSIONAL COMPETENCIES

While skills can be relevant to a specific job, competencies extend beyond that to knowledge and abilities, allowing you and your team to perform at a higher level. Competencies are formed over longer periods of time, and are transferable between positions and employers, helping to drive your career development. A competency model collects the behavioral and technical components that an individual performing a job function must have to demonstrate mastery.

With that in mind, The IIA has developed the Internal Audit Competency Framework® to help you focus on the capabilities that are relevant to your success. Our Framework will help you:

- Add value to your organization and drive superior performance.
- Advance your career and demonstrate your value to your organization.
- Select and develop employees.

By focusing on competencies, you'll develop the qualities that matter most in your current position, as well as the expertise that will propel your career growth and help you achieve your goals as an internal auditor.

For complete details on the Internal Audit Competency Framework® that can be accessed at any time, please visit theiia.org/CompetencyFramework.

MAKE THE MOST OF YOUR LEARNING

Organizing your learning program by broader competencies helps you demonstrate the values that are important to your organization and focus on capabilities that match your company's strategic priorities.

The Internal Audit Competency Framework® provides four distinct knowledge areas, each featuring three competency levels. Our learning is grouped into these categories, allowing you to choose the courses that fit your particular stage in your career.

The four areas of the Internal Audit Competency Framework® are Professionalism, Performance, Environment, and Leadership & Communication. The IIA provides training courses that support each of these competencies, helping you develop your skills and knowledge and encouraging your growth within the internal audit profession.

LEARNING DELIVERY OPTIONS

The IIA offers learning through a variety of delivery options to meet your needs effectively and efficiently.

INSTRUCTOR-LED IN-PERSON LEARNING

Instructor-led in-person learning is held at various locations throughout the US and Canada each year. This hands-on, interactive, and in-depth learning is conducted by internal audit practitioners who share real-world experience, leading practices, and knowledge.

INSTRUCTOR-LED ONLINE LEARNING

These short, hands-on, interactive, and in-depth learning sessions are conducted by internal audit practitioners who share real-world experience, leading practices, and knowledge. This delivery option gives you the flexibility to fit training into your busy schedule.

ONDEMAND LEARNING

Learn at your own pace at any time or location through online self-study. Courses are available on a wide variety of topics, from onboarding new staff to audit management practices for senior leaders, along with playbacks of previous conferences. For a complete list of OnDemand options, please visit theiia.org/ondemand.

GROUP TRAINING

Train your whole team using online or in-person learning, or any combination. An IIA Training professional will work with you to create a professional development plan for your team. All certificate, certification preparation, seminar, and OnDemand courseware can be purchased and produced as group learning. For more information, or to plan a group learning session for your team, contact our Group Services team at gettraining@theiia.org or +1-407-937-1397.

NEW! AUDITING THE CYBERSECURITY PROGRAM CERTIFICATE

KNOWLEDGE LEVEL: INTERMEDIATE

DESCRIPTION:

Internal audit should play a key role in supporting the organization in reducing cyber risk. Cybersecurity program auditing can serve as the critical barrier between a potential cyber-attack and the organization. Due to the cost, risk, and reputational damage that can result from a cyber incident or data breach, every organization needs a cyber strategy and response plan.

CPES	20		
		IN-PERSON	ONLINE

COSO INTERNAL CONTROL CERTIFICATE

KNOWLEDGE LEVEL: INTERMEDIATE

DESCRIPTION:

This certificate, through a blend of self-paced learning and live classroom training, offers you a unique opportunity to develop expertise in designing, implementing, and conducting an internal control system. Upon completion of the self-study course and the in-person training, you'll be eligible to sit for the exam and earn your certificate.

CPES	25.5		
		IN-PERSON	ONLINE

COSO ENTERPRISE RISK MANAGEMENT CERTIFICATE

KNOWLEDGE LEVEL: INTERMEDIATE

DESCRIPTION:

This program allows you to take control of your risk management strategy. Enterprise risk has changed, new risks have emerged, and managing risks has become everybody's responsibility. With the COSO ERM Certificate Program, you will learn the concepts and principles of the newly updated ERM framework, and you will be prepared to integrate the framework into your organization's strategy-setting process to drive business performance.

CPES	20		
		IN-PERSON	ONLINE

NEW! DATA ANALYTICS & LITERACY CERTIFICATE

KNOWLEDGE LEVEL: BASIC

DESCRIPTION:

This certificate program is designed to ensure the internal audit community possesses the fundamental data literacy competencies to effectively assess an organization's data governance and management practices, including its' data analytics capabilities.

CPES	16		
		IN-PERSON	ONLINE

NEW! ESG CERTIFICATE: INTERNAL AUDITING FOR SUSTAINABLE ORGANIZATIONS

KNOWLEDGE LEVEL: INTERMEDIATE

DESCRIPTION:

This certificate program is designed to provide internal auditors with the core competencies necessary to assess an organization’s ESG program. The program provides in-depth training on ESG reporting through the review of current and pending regulations. Learners will also examine the critical components of governing and managing an ESG program and improve their ability to assess an ESG program.

CPES

ONLINE

NEW! FRAUD ANALYTICS FOR INTERNAL AUDITORS CERTIFICATE

KNOWLEDGE LEVEL: INTERMEDIATE

DESCRIPTION:

Completing this certificate program enhances participants’ capabilities to discover potential fraud while performing everyday audit data analytics. Data is at the core of the functionality of today’s organizations and internal audit is increasingly a major consumer of this data. Data provided to the internal audit function for analysis can support or question the effectiveness of internal controls. This same data can also uncover questionable behavior and identify potential fraud.

CPES

16

IN-PERSON

ONLINE

IT GENERAL CONTROLS CERTIFICATE

KNOWLEDGE LEVEL: INTERMEDIATE

DESCRIPTION:

This program assists the internal auditor in gaining a fundamental understanding of technology-related risks and controls in preparation for the IT General Controls Certificate assessment. It is designed to ensure that all internal auditors have the minimal technical competencies to perform basic IT-related audit activities, focusing on governance, project delivery, and IT general controls. Upon completion of the certificate program, participants are eligible to sit for the assessment to earn the certificate.

CPES

20

IN-PERSON

ONLINE

AGILE AUDITING

KNOWLEDGE LEVEL: **INTERMEDIATE**

DESCRIPTION:

This course takes the mystery out of agility. It starts with an overview of the values and principles of Agile software development and introduces scrum – a framework which can be used to manage complexity in the internal audit engagement process. Compatibility with the *International Standards for the Professional Practice of Internal Auditing* is covered to dispel common misperceptions about whether Agile auditing aligns with professional standards.

CPES 16

IN-PERSON ONLINE

ANALYZING AND IMPROVING BUSINESS PROCESSES

KNOWLEDGE LEVEL: **BASIC**

DESCRIPTION:

This course provides participants with a set of tools and techniques that can be used in any process analysis engagement. In addition, it includes numerous opportunities to apply those tools and techniques to real-world scenarios. The best way to build business process analysis skills is by doing the work, and this course is full of hands-on applications using case studies and the participants' understanding of their own processes to apply these tools and techniques.

CPES 16

IN-PERSON ONLINE

BUILDING A SUSTAINABLE QUALITY PROGRAM

KNOWLEDGE LEVEL: **INTERMEDIATE**

DESCRIPTION:

This course will help participants learn how to build and maintain an effective Quality Assurance and Improvement Program (QAIP), leading to a successful external quality assessment.

CPES 16

IN-PERSON ONLINE

CORE CURRICULUM: UNDERSTANDING INTERNAL AUDITING

KNOWLEDGE LEVEL: **BASIC**

DESCRIPTION:

This course provides a comprehensive understanding of the internal audit profession, process, and IPPF. It compares internal to external audit and assurance with consulting services; establishes purpose, authority, and responsibility of internal audit; explains concepts of governance, risk management, and control; provides best practices for communicating conclusions and disseminating results; and shares how to establish action plans and monitoring programs.

CPES 16

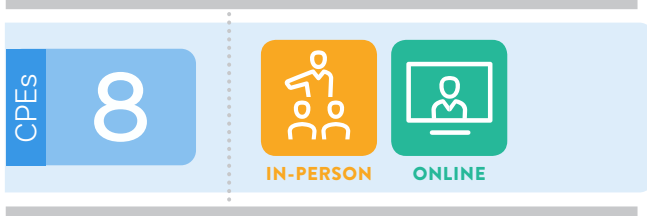

IN-PERSON ONLINE

DEVELOPING AUDIT OBSERVATIONS

KNOWLEDGE LEVEL: **BASIC**

DESCRIPTION:

This highly interactive course provides internal auditors with timely insights into how to utilize critical-thinking techniques to translate audit findings into actionable audit observations. This course is not focused on the act of audit report writing, but rather on the foundational component of audit reporting – an effective audit observation. This course reviews the common writing mistakes that impact an internal auditor’s ability to effectively communicate audit observations.

A horizontal bar with a light blue background. On the left, a blue square contains the text 'CPES' and a larger white square contains the number '8'. To the right of a vertical dashed line, there are two icons: an orange square with three stylized figures and the text 'IN-PERSON' below it, and a green square with a computer monitor icon and the text 'ONLINE' below it.

FINANCIAL AUDITING FOR INTERNAL AUDITORS

KNOWLEDGE LEVEL: **BASIC**

DESCRIPTION:

Learn how key business processes relate to financial statements, and the impact of technology on financial auditing. The course will explore the analysis of an organization’s financial statements using application exercises, where participants will calculate key ratios and analyze trends over time. This course will also provide the opportunity learn how to recognize “red flags” in financial statement reporting.

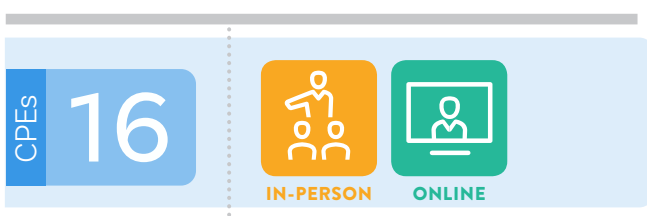

A horizontal bar with a light blue background. On the left, a blue square contains the text 'CPES' and a larger white square contains the number '16'. To the right of a vertical dashed line, there are two icons: an orange square with three stylized figures and the text 'IN-PERSON' below it, and a green square with a computer monitor icon and the text 'ONLINE' below it.

NEW! FUNDAMENTALS OF COMPLIANCE AUDITING

KNOWLEDGE LEVEL: **BASIC**

DESCRIPTION:

This course provides a comprehensive overview of key compliance auditing concepts that are fundamental for all internal auditors. This course introduces participants to a host of common regulations and the controls needed to maintain compliance, and how to apply each regulation within the internal audit process. Explore various reporting requirements and how to collect evidence and perform internal audit activities against the regulatory reporting guidelines.

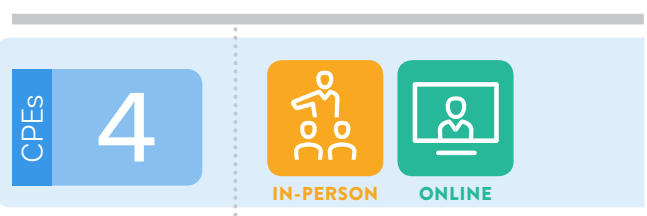

A horizontal bar with a light blue background. On the left, a blue square contains the text 'CPES' and a larger white square contains the number '16'. To the right of a vertical dashed line, there are two icons: an orange square with three stylized figures and the text 'IN-PERSON' below it, and a green square with a computer monitor icon and the text 'ONLINE' below it.

FUNDAMENTALS OF INTERNAL AUDITING

KNOWLEDGE LEVEL: **BASIC**

DESCRIPTION:

This introductory course starts with an overview of risk management principles, including foundational concepts such as the nature of risk, risk sources and categories, risk appetite, and risk tolerance. With an emphasis on theory, this course prepares new internal auditors to become effective participants in performing risk-based internal audits. This course includes interactive activities based on real-life scenarios that participants can apply to their own organization .

A horizontal bar with a light blue background. On the left, a blue square contains the text 'CPES' and a larger white square contains the number '4'. To the right of a vertical dashed line, there are two icons: an orange square with three stylized figures and the text 'IN-PERSON' below it, and a green square with a computer monitor icon and the text 'ONLINE' below it.

HIGH-IMPACT AUDIT REPORTING

KNOWLEDGE LEVEL: **BASIC**

DESCRIPTION:

This course focuses on the importance of delivering clear, transparent, and objective audit reports. At the conclusion of this course, you will have gained effective communication skills and techniques that will enable you to convey critical information, and write effective and meaningful audit reports, using a variety of delivery methods.

CPES	8		
		IN-PERSON	ONLINE

OPERATIONAL AUDITING: INFLUENCING POSITIVE CHANGE

KNOWLEDGE LEVEL: **INTERMEDIATE**

DESCRIPTION:

Discover how operational auditing plays an important role in today's business environment beyond traditional internal controls, instead as a trusted business partner pursuing operational excellence. Learn to employ methods, tools, and skills to collect and analyze operational data, identify causes of operational issues and risk, and develop solutions to enhance performance.

ADVANCED RISK-BASED AUDITING

KNOWLEDGE LEVEL: **INTERMEDIATE**

DESCRIPTION:

This course prepares participants to develop an audit universe and risk-based internal audit plan. It also addresses emerging and advanced risk management topics such as governance risk, strategic risk, fraud risk, information technology risk, and auditing the risk management process. Interactive activities and real-life scenarios provide participants with concepts and tools to develop a value-added, risk-based audit plan for their organization.

CPES	16		

NEW! ASSESSING FRAUD RISK AT THE ENGAGEMENT LEVEL

KNOWLEDGE LEVEL: **INTERMEDIATE**

DESCRIPTION:

In this course, participants will develop an essential understanding of fraud types, sources, and risks and explore how to apply this understanding at the engagement level.

CPES	4		

COSO-BASED INTERNAL AUDITING

KNOWLEDGE LEVEL: **INTERMEDIATE**

DESCRIPTION:

This course provides an opportunity for internal auditors to develop the level of understanding of the COSO frameworks needed to carry out their roles and responsibilities. Participants will explore how to leverage the COSO frameworks in their audit process through various activities. The course will deliver ideas for value-added services to enhance organizational performance and governance for sustainable success and for conforming to the Standards.

CPES	16		

ENTERPRISE RISK MANAGEMENT: A DRIVER FOR ORGANIZATIONAL SUCCESS

KNOWLEDGE LEVEL: **INTERMEDIATE**

DESCRIPTION:

This course is designed for internal auditors with at least three years of experience who are involved in the ERM process, as well as managers and other professionals who deal with the complexities of ERM.

CPES	16		

NEW! FRAUD RISK ASSESSMENT

KNOWLEDGE LEVEL: **BASIC**

DESCRIPTION:

Fraud risk assessments are an effective tool utilized by companies to effectively identify and prioritize areas of fraud risk within their organization, with a focus on the review of potential fraud schemes and establishing internal controls in place to prevent/detect those schemes. This course is designed for internal auditors with a basic understanding of assessing organizational fraud risk vulnerabilities and those involved in internal audit engagements requiring an understanding of fraud control management.

CPES 4

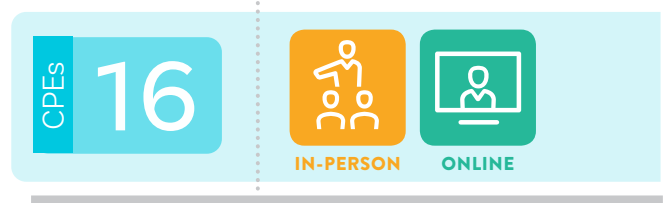

IN-PERSON ONLINE

FUNDAMENTALS OF RISK-BASED AUDITING

KNOWLEDGE LEVEL: **BASIC**

DESCRIPTION:

This introductory course establishes an overview of risk management principles, including foundational concepts such as the nature of risk, risk sources and categories, risk appetite, and risk tolerance. With an emphasis on theory, this course prepares new internal auditors to become effective participants in performing risk-based internal audits. This course includes interactive activities based on real-life scenarios that participants can apply to their own organization.

CPES 16

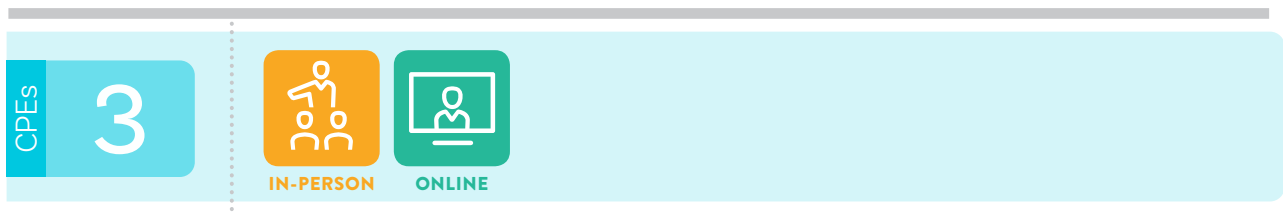

IN-PERSON ONLINE

NEW! FRAUD AUDITING

KNOWLEDGE LEVEL: **BASIC**

DESCRIPTION:

This course will provide participants with an examination into the detection, assessment, investigation, and mitigation of fraud. Also addressed will be fraud risk management and the importance of a fraud risk framework in mitigating fraud at an organizational level. Areas of potential high fraud risk will be discussed and recommendations for mitigation of fraud presented.

CPES 3

IN-PERSON ONLINE

NEW! AUDITING THE DATA PRIVACY POLICY

KNOWLEDGE LEVEL: **BASIC**

DESCRIPTION:

The objective of a data privacy policy internal audit is to assess an organization’s privacy protection posture against any regulatory requirements – or international best practices – and to review compliance with the organization’s own privacy-related policies. This course is designed for internal auditors with a basic understanding of data privacy policy auditing and those involved in internal audit engagements that require an understanding of how to manage organizational risk related to data privacy regulations and compliance.

A horizontal bar with a light purple background. On the left, a purple square contains the text 'CPES' and a large white number '3'. To the right, separated by a vertical dashed line, are two icons: an orange one with three stylized figures labeled 'IN-PERSON' and a teal one with a computer monitor labeled 'ONLINE'.

NEW! AUDITING SOCIAL MEDIA AND DIGITAL PRESENCE

KNOWLEDGE LEVEL: **BASIC**

DESCRIPTION:

Organizations have some degree of social media presence, either because they created it or someone else has done it for them through reputation, posts, or fake profiles. The key question is what strategy is in place to govern and manage the organization’s social media and digital presence? This course is designed for internal auditors with a basic understanding of information technology and social media and digital presence applications and for those who have been involved in internal audit engagements that require an understanding of how to manage the impact of social media and digital presence on organizational risks.

A horizontal bar with a light purple background. On the left, a purple square contains the text 'CPES' and a large white number '3'. To the right, separated by a vertical dashed line, are two icons: an orange one with three stylized figures labeled 'IN-PERSON' and a teal one with a computer monitor labeled 'ONLINE'.

NEW! AUDITING THE AUTOMATION CENTER OF EXCELLENCE

KNOWLEDGE LEVEL: **INTERMEDIATE**

DESCRIPTION:

The risk and control landscape for an organization’s automation center of excellence (COE) is highly complex, extending well beyond information technology risk. Although internal audit departments are accustomed to complex environments and to working with established risk-management frameworks, automation changes the game by adding new categories to these frameworks, along with introducing new risks into existing groupings. This course will prepare internal auditors with a basic understanding of automation tools and the automation center of excellence.

A horizontal bar with a light purple background. On the left, a purple square contains the text 'CPES' and a large white number '3'. To the right, separated by a vertical dashed line, are two icons: an orange one with three stylized figures labeled 'IN-PERSON' and a teal one with a computer monitor labeled 'ONLINE'.

AUDITING THE CLOUD

KNOWLEDGE LEVEL: **INTERMEDIATE**

DESCRIPTION:

This course provides participants with a deeper understanding of cloud-related designs, risks, and controls, while examining the connection between cybersecurity and cloud environments. This course provides additional insight into cloud-related standards and guidelines, and explains how to audit cloud environments.

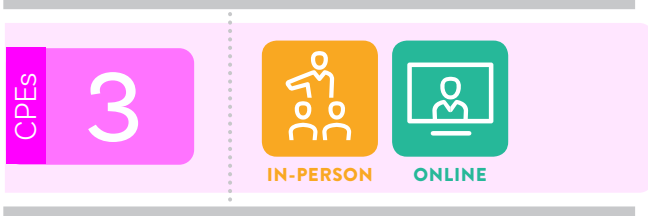

A horizontal bar with a light purple background. On the left, a purple square contains the text 'CPES' and a large white number '4'. To the right, separated by a vertical dashed line, are two icons: an orange one with three stylized figures labeled 'IN-PERSON' and a teal one with a computer monitor labeled 'ONLINE'.

NEW! AUDITING OPERATIONAL RESILIENCY IN TECHNOLOGY AND BEYOND

KNOWLEDGE LEVEL: **INTERMEDIATE**

DESCRIPTION:

Achieving technological operational resilience is a non-negotiable for most organizations. Internal audit provides an appropriately balanced and valued advisory and assurance support as the organization seeks to embed custom-fit frameworks, policies, and processes that will achieve desired business outcomes. This course will prepare individuals for internal audit engagements that require an understanding of how to manage the impact of operations and technology disruption on the organization.

CPES 3

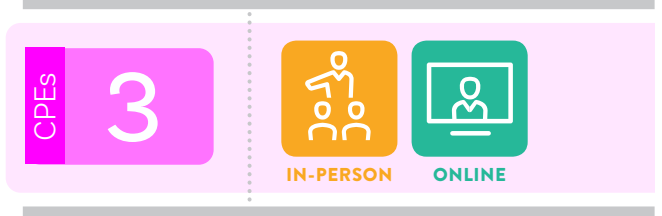

IN-PERSON ONLINE

NEW! AUDITING MOBILE COMPUTING AND CONNECTED DEVICES

KNOWLEDGE LEVEL: **BASIC**

DESCRIPTION:

This course is designed for internal auditors with a basic understanding of information technology and cybersecurity concepts and for those involved in internal audit engagements that require an understanding of how to manage the impact of mobile computing and connected devices on organizational risks.

CPES 3

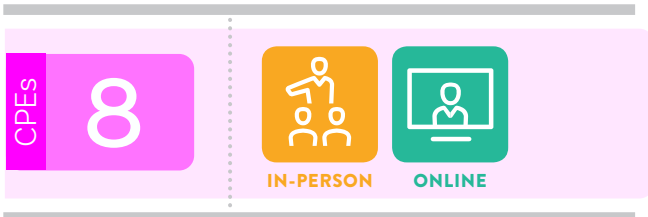

IN-PERSON ONLINE

EXAMINING CYBERSECURITY CONCEPTS

KNOWLEDGE LEVEL: **INTERMEDIATE**

DESCRIPTION:

This course examines cybersecurity concepts that can be used to facilitate integrated auditing efforts within an organization. It examines the connection between cybersecurity and network security, and provides greater insight into the pros and cons of technology insurance. It explores how to apply the audit process to social media, mobile, and cloud environments. Finally, the course explores common cyber-related frameworks, standards, and guidelines, and explains how to audit common cybersecurity solutions.

CPES 8

IN-PERSON ONLINE

NEW! IDENTITY ACCESS MANAGEMENT, ZERO TRUST, AND MICRO-SEGMENTATION FOR AUDITORS

KNOWLEDGE LEVEL: **INTERMEDIATE**

DESCRIPTION:

Cybersecurity identity access management refers to the technologies, processes, and practices designed to protect an organization’s information assets. The concepts of “zero trust” and “micro-segmentation” have become universally accepted information security risk management tactics. This course is for those involved in internal audit engagements that require an understanding of how to manage the impact of data breaches on the organizational risk profile and appetite.

CPES **3**

IN-PERSON **ONLINE**

INTERNAL AUDIT’S GUIDE TO RANSOMWARE

KNOWLEDGE LEVEL: **INTERMEDIATE**

DESCRIPTION:

Organizations protect data assets. Meanwhile, bad actors extort organizations by using ransomware, which denies organizations access to their own servers by encrypting the files then demanding a “ransom” payment for the decryption key, putting organizations at risk where payment of the ransom is the only option. This course explores how internal audit can assist their organizations in defending themselves.

CPES **4**

IN-PERSON **ONLINE**

IT GENERAL CONTROLS

KNOWLEDGE LEVEL: **BASIC**

DESCRIPTION:

The IT general controls course presents the fundamental concepts and terminology associated with IT general controls, including controls provided by automated systems. With an emphasis on ways the operational audit can participate in IT-related activities within audit engagements, this course provides tips on how to apply learned concepts to risk evaluation and the audit process.

CPES **4**

IN-PERSON **ONLINE**

ASSESSING ETHICS IN YOUR ORGANIZATION

KNOWLEDGE LEVEL: **BASIC**

DESCRIPTION:

This course provides a comprehensive overview of the elements of organizational ethics and the responsibilities for establishing and maintaining an ethical climate in an organization. Explore the roles of internal audit and compliance departments in supporting and assessing the ethical climate, examine approaches to auditing ethics, and determine the best approaches for reporting the results of an ethics audit.

CPES	4		 IN-PERSON	 ONLINE

COMMUNICATION SKILLS FOR AUDITORS: INTERVIEWING AND NEGOTIATING

KNOWLEDGE LEVEL: **BASIC**

DESCRIPTION:

This course presents information about interviewing and negotiating to help improve your skills. The highly interactive activities offer the opportunity for internal auditors of all skill levels to role-play scenarios in a judgment-free zone in preparation for effectively utilizing these skills during the interview process.

CPES	16		 ONLINE
------	----	--	--

CRITICAL THINKING: A VITAL AUDITING COMPETENCY

KNOWLEDGE LEVEL: **BASIC**

DESCRIPTION:

This one-day course examines the various facets and components of this important core competency and demonstrates how it can be weaved throughout key elements of the audit process. The concepts and practices presented in this course are designed to enhance audit effectiveness and deliver measurable value to audit customers.

CPES	8		 IN-PERSON	 ONLINE

ROOT CAUSE ANALYSIS FOR ENHANCING INTERNAL AUDITOR EFFECTIVENESS

KNOWLEDGE LEVEL: **BASIC**

DESCRIPTION:

Explore key root cause analysis tools and techniques that can be utilized in all phases of an internal audit engagement to enhance audit effectiveness, strengthen audit observations, and facilitate deeper discussions with management on issues identified. These tools can be used independently or alongside existing audit methodologies, tools, and techniques.

Certify Your Team

Success Is Measured by
the Impact They Make.

Having a team with **Certified Internal Auditor® (CIA®)** after their names demonstrates to stakeholders that your internal audit department is aligned and possesses the latest knowledge, skills, and competencies to effectively carry out the professional responsibilities to conduct any internal audit, anywhere.

With CIA in their titles, your team members prove they are credible, competent, and committed to helping your organization improve its culture and enhance critical processes.

A CIA certified team is...

- Made up of stronger, more competent professionals.
- Comprised of credible and trusted internal auditors.
- Equipped to evolve with unexpected challenges.
- Essential to the organization's success.
- A valuable source of sound candidates for succession planning.

Prove their credibility and proficiency.

www.theiia.org/CertifyYourTeam

CIA®
Certified
Internal Auditor®

**REPORT
CPEs**

Make your certification stick!

Now is the time to keep your esteemed certification active by earning and reporting CPEs to meet this year's guidelines (and prove value and credibility). Plus, ensure you're prepared for the 2023 policy updates.

Report CPEs by 31 December. theiia.org/CPE

Learn. Earn. Report. Retain.
